Although not required for testing, signs and symptoms of COVID-19 include fever, chills, cough, fatigue, body aches, muscle or joint pain, shortness of breath, sore throat, headaches, nausea, vomiting, diarrhea, nasal congestion, and loss of taste and/or smell.

The public is reminded that even infected persons with little to no symptoms can spread the virus to others. Even if an infected person is only mildly ill, the people they spread it to may become seriously ill or even die, especially if that person is 65 or older with pre-existing health conditions.

Health questions about COVID-19 can be made by calling the 21-COVID hotline, from 7 a.m. to 8 p.m. Monday through Friday and 10 a.m. to 6 p.m. Saturday and Sunday. For referrals to services, contact 2-1-1 and select option six (6). For more information, visit www.epstrong.org.
